

The background of the advertisement shows two young women in an elevator. The woman on the left has long blonde hair, is wearing a red and blue plaid shirt over a dark dress, and is holding a skateboard. The woman on the right has curly brown hair, is wearing a red and white jacket over a grey shirt and blue jeans, and is looking at her smartphone. The elevator has a modern, metallic finish with a digital display and a keypad. Blue light trails are visible in the air, suggesting digital connectivity. The overall scene is brightly lit and modern.

people flow

The lift experience, redefined

In an increasingly digitalized world, everything is connected, and lifts are no exception. The KONE MonoSpace® DX redefines the lift experience with built-in connectivity for improved people flow and a completely new and inspiring user experience.

DX stands for digital experience because with the KONE MonoSpace DX you can create an experience that really connects, on every level.

Powered by the compact, energy-efficient KONE EcoDisc® hoisting motor, the KONE MonoSpace DX saves valuable space in your building by completely removing the need for a machine room.

We help you accelerate construction and lower construction costs with productivity enhancing construction time use solutions that help building projects finish ahead of schedule.

Whether you're developing a new building or replacing the lift equipment in an existing one, we have a solution that fits. Contact your local KONE sales representative to find out more.

1

Get more value out of every square meter with built-in connectivity

By adding connectivity to your lifts you make them smarter and more desirable – helping you get more value out of every square meter. New services enabled by the KONE digital platform and KONE Partner Ecosystem, as well as application programming interfaces (APIs), make everyday life even easier and more convenient for everyone.

2

Accelerate construction with improved productivity

With our new improved construction time solutions and processes, we can optimize your productivity and accelerate the completion of your building projects by several weeks or even months. We make people and material flows on-site as fast and efficient as possible.

3

Differentiate with a redefined user experience for tenants and visitors

Redefine the lift user experience, bring your vision to life, and inspire users with our new car interior designs, functional and durable materials, direct and indirect lighting, new infotainment features, and new modular signalization.

4

Partner for smart and sustainable buildings

Make the right decisions first time and plan your lift down to the very last detail with our next-generation planning tools. Take advantage of our expert support and sustainable materials and technologies to help you achieve green building certifications and compliance with safety codes and standards.

Easy to upgrade

With easy digital integration and the possibility to upgrade in the future as your needs change, you're all set to add new connected services as and when you need them.

Best-in-class energy efficiency

Save energy and cut your building's carbon footprint with a machine room-less lift that offers eco-efficient hoisting, high-efficiency regenerative drive, long-lasting LED lighting, and energy-saving standby operation.

Space efficiency

Installing everything inside the lift shaft frees up space for more profitable use. When completely replacing an lift we can improve accessibility with a bigger car and wider-opening doors – and even reclaim the machine room as rentable floor space.

Future-proof your building with built-in connectivity

The KONE MonoSpace DX takes our market-leading eco-efficient lifts and adds connectivity to make them smarter and more desirable than ever before.

Connected people flow means your lift solution never stands still and your building gets better with every update.

To bring you peace of mind in the digital world, cybersecurity and privacy are designed into our digital services and connections. Monitoring our digital environments around the clock helps us take proper care of them for you now and in the future.

Get more value out of every square meter with built-in connectivity

In an increasingly connected world, people expect more from the spaces where they live and work. Smart solutions based on connected digital technologies not only help buildings attract a premium price, they also help to speed up the sales or leasing process.

According to an independent survey* of 4,000 apartment-building residents across four European countries:

78%

believe buildings will become increasingly smart

70%

believe smart building features will help their apartment sell more quickly

CASE EXAMPLE

of apartments: 100
Avg. size: 50 m²
Avg. apt. price: 4250 £/m²

£ 26.300
cost savings compared to a traditional intercom system

+£ 1 000 000
Increased building value

* Independent survey conducted in collaboration with Kantar TNS Oy during 2018 in cities with over 100,000 inhabitants.

Add innovative services that improve convenience and comfort

KONE MonoSpace DX utilizes the KONE digital platform and secure APIs to connect lifts with a whole new suite of solutions and services that make life easier and more convenient for users.

Take advantage of digital solutions continuously developed by KONE like KONE 24/7 Connected Services for peace of mind throughout the lift life cycle.

With KONE APIs you also have the freedom to develop your own smart building solutions, allowing you to further customize the lift experience to meet the needs of your building and its users.

You can also benefit from solutions and services developed by the growing number of partners of the KONE Partner Ecosystem, which develop solutions that can be integrated with KONE DX class lifts.

Accelerate construction with improved productivity

Our solutions help to maximize lift uptime and move construction site workers and material around the building more efficiently during the construction process to help you finish your project sooner.

KONE CONSTRUCTION TIME USE LIFTS

The final lifts equipped with protective materials so they can be used during construction

24/7 CONNECTED SERVICES

Uninterrupted people and material flow, and maximum accessibility and safety on site with predictive maintenance during construction

KONE JUMPLIFT

A self-climbing construction time lift solution uses the building's permanent lift shaft during construction for smooth logistics that speed up building completion and lead to a quicker return on investment.

Plan for success with KONE as your partner

Your journey with KONE is a simple one. In a complex project, the pressure to stay on schedule and within plan is high. Our people and partners, from technicians to project managers, are fully committed to the highest customer satisfaction in the industry.

That is why we have the best processes and tools to support you every step of the way.

Professional project management

When you buy a solution from KONE, you're getting far more than just equipment and installation. Every single project we handle is led by a dedicated, accredited project manager with solid experience of running similar projects.

Building information modeling (BIM)

We use digital planning techniques like BIM to prepare for the installation process. This helps you understand and optimize your construction project.

Site readiness

To make sure everything we need is in place before we begin installation, we can monitor and report the readiness state of the site.

Efficient installation

The KONE lift installation process doesn't require scaffolding, which cuts costs and minimizes disruption to other construction work on site.

Quality assurance and maintenance

Before your lift is handed over, we take every necessary measure to ensure that you're taking delivery of a high-quality solution that will run as it should from day one.

Differentiate with a redefined user experience for tenants and visitors

Deliver a user experience that inspires, informs, and delights. With KONE MonoSpace DX Class lifts you can harness the power of digitalisation to take the lift journey far beyond the ordinary. A whole new range of car designs, material options, and lighting and signalisation choices, as well as fully customizable digital infotainment solutions, adds value to your building.

Functional, durable materials

Create a healthy and hygienic car interior that's easier than ever to clean, maintain, and keep looking its best with our new range of materials, including smart-surface laminates and anti-stain and anti-microscratch surfaces.

Impactful lighting

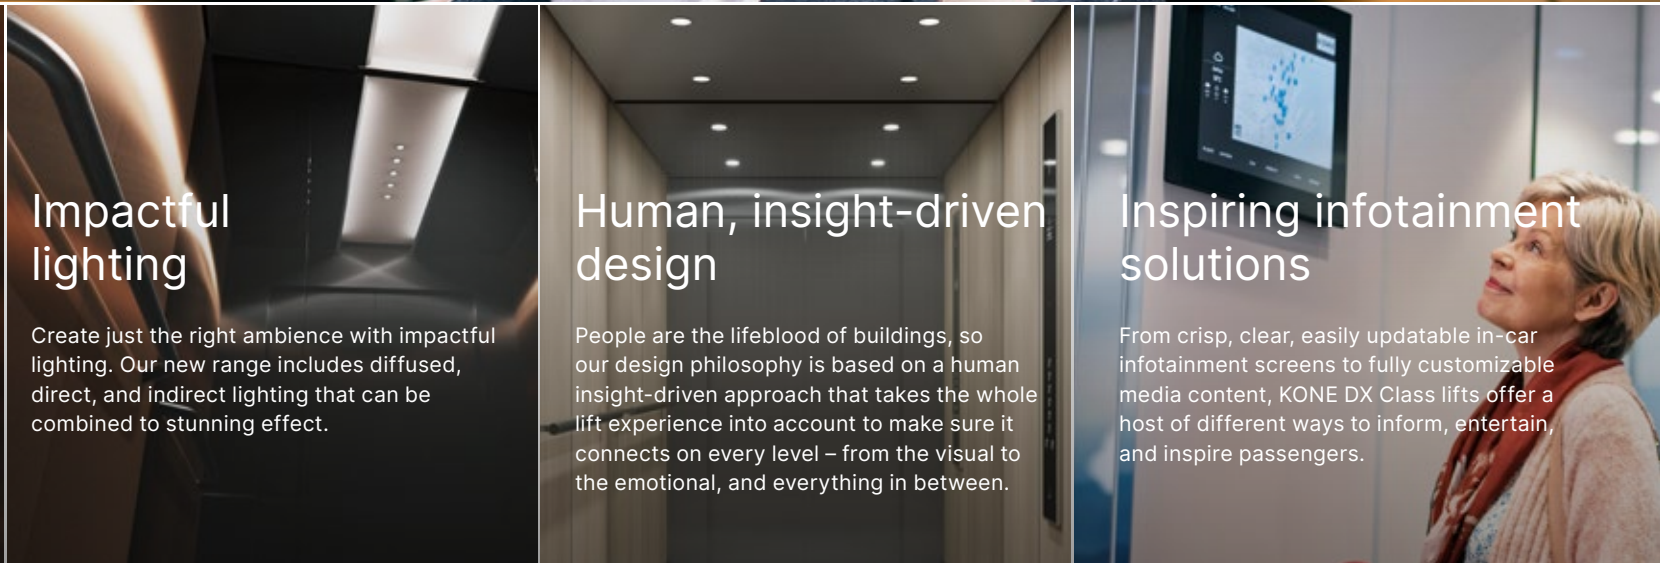

Create just the right ambience with impactful lighting. Our new range includes diffused, direct, and indirect lighting that can be combined to stunning effect.

Human, insight-driven design

People are the lifeblood of buildings, so our design philosophy is based on a human insight-driven approach that takes the whole lift experience into account to make sure it connects on every level – from the visual to the emotional, and everything in between.

Inspiring infotainment solutions

From crisp, clear, easily updatable in-car infotainment screens to fully customizable media content, KONE DX Class lifts offer a host of different ways to inform, entertain, and inspire passengers.

Partner for smart and sustainable buildings

Now more than ever, it's vital we work together to build smart, sustainable, and adaptable buildings that last. Build greener and make sure your project is on track to meet industry codes and standards with our next-generation planning tools, safe and sustainable materials, and expert support.

Build greener

KONE solutions and expertise can make all the difference when you're aiming to achieve green building certifications and credits for schemes like BREEAM and LEED.

Build to standards

The KONE MonoSpace DX complies with all relevant industry codes and standards. Talk to your local KONE sales representative about how we can support you with issues such as accessibility, vandal-resistance, and fire code compliance.

Build with a smaller footprint

Our lifts are already highly energy-efficient, and now you have the option to compensate the embodied carbon emissions of any KONE MonoSpace® 500 DX and 700 DX lifts that you purchase. The compensation applies to the period up to the lift handover date.

PLAN AND DESIGN YOUR LIFT

Digital, easy-to-use tools to help you create lifts that match your needs.

TRY THEM NOW →

KONE provides innovative and eco-efficient solutions for lifts, escalators, automatic building doors and the systems that integrate them with today's intelligent buildings. We support our customers every step of the way: from design, manufacturing and installation to maintenance and modernization. KONE is a global leader in managing the smooth flow of people and goods throughout buildings. This makes us a reliable partner throughout the life cycle of buildings. We are fast, flexible, and we have a well-deserved reputation as a technology leader, with such innovations as KONE 24/7 Connected Services and KONE UltraRope®. KONE employs over 63,000 dedicated experts to serve you globally and locally.
